Dear Ministry of Foreign Affairs,

this mail is simply meant as a recommendation of the Taiwan embassy in Germany as a whole ('Taipeh Vertretung in der Bundesrepublik Deutschland'), with the Munich office in particular emphasis.

My wife and I applied for visa to the ROC recently. We are both German citizens and applied to the Munich office of the ROC embassy.

All our requests were answered in a prompt manner (even at unusual times), and the responses were very helpful and constructive. The embassy also helped us with switching to a different visa type for me personally when the German bureaucracy took too long with providing critical documents to get the visa application processed before entry.

We wanted to express our appreciation of the embassy in general and the Munich office in particular to you directly. There is no need to respond to this mail from our point of view.

Yours,
